

READING, MATH & AFTER- SCHOOL LEARNING

FOR SCHOOL-AGE CHILDREN
WITH INTELLECTUAL AND
DEVELOPMENTAL DISABILITIES

People

Support

Reading Program

provides one hour of one-on-one tutoring for students experiencing reading difficulty.

Math Program provides one hour of one-on-one tutoring for students experiencing math difficulty.

After School Learning provides remediation and extra practice on educational skills being covered in school. Tutors give students 30 minutes to an hour of individual support with homework, organizational skills and they help build confidence with the learning process.

Reading sessions provide instruction in the areas of phonemic awareness, the alphabetic principle (phonics), decoding, and reading. Activities are incorporated into each session to encourage reading, writing, listening, and speaking for response to literature and for social communication.

Math sessions provide instruction and activities designed around the individual student in order to support accuracy and fluency of basic facts, key concepts, operations, problem-solving concepts, content knowledge and skill integration.

READING, MATH & AFTER-SCHOOL LEARNING

GET IN TOUCH

APPLICATION PROCESS REQUIRED

Program is for school-age children who are OPWDD eligible and **takes place Monday through Friday, after school**. Services are provided by certified teachers.
